## NEW VEHICLE WARRANTY SUMMARY

– No deductibles – no transfer fees

### COMPREHENSIVE COVERAGE

3 YEARS OR 60,000 KM.

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

### POWERTRAIN COMPONENTS

5 YEARS OR 100,000 KM.

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

### MAJOR EMISSION CONTROL COMPONENTS

8 YEARS OR 130,000 KM.

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

### CORROSION PERFORATION

5 YEARS/UNLIMITED DISTANCE.

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

## DISCLAIMERS

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner's Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Do not use the hands-free phone system if it will distract you. A compatible Bluetooth®-enabled phone must first be paired. Phone performance depends upon software, coverage and carrier. (4) Driving while distracted can result in loss of vehicle control. Always drive safely, obey traffic laws and focus on the road and traffic conditions while driving. (5) Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your Dealer. (6) Siri Eyes Free is a trademark of Apple Inc., registered in the US and other countries. (7) Cold weather and other environmental factors may limit system. Operates at low speed or when parked. Do not rely exclusively on the system as it is not intended to replace safe attentive operation of the vehicle. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm clearance. (8) A single disc DVD player is standard on vehicles equipped with the Dual-View Entertainment System. A separate DVD player or game system utilizing the centre console's video/audio inputs is required in order to use the split-screen function. (9) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect VSC system effectiveness. (10) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (11) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. (12) Do not rely exclusively on the Blind Spot Monitor System and Rear Cross-Traffic Alert System. They are not collision-avoidance systems or substitutes for safe and attentive driving. (13) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (14) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (15) Lane Departure Alert with Steering Assist is designed to read lane markers under certain conditions and provide visual and audible alerts and slight steering force when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (16) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (17) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (18) Do not rely exclusively on the Rear Cross-Traffic Brake System and Intelligent Clearance Sonar System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner's Manual. (19) Services are dependent upon connection to a compatible wireless network. The current compatible 3G GSM/GPRS cellular network is provided by a third-party wireless service provider. Toyota is not responsible for cellular network discontinuance. (20) Select Toyota Entune™ App Suite apps use a large amount of data and you are responsible for all data charges. Apps and services vary by phone and carrier; not all services available all the time and in all locations, and are subject to change. (21) Contact with Safety Connect™ response centre is dependent upon the telematics device being in operative condition, cellular connectivity availability, and navigation map data and GPS satellite signal reception, which can limit the ability to reach the response centre or receive emergency support. Once the trial subscription expires, enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms are available; charges vary by subscription term selected. (22) Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. Availability and accuracy of the information provided by Scout® GPS Link is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. See [www.toyota.ca](http://www.toyota.ca) for details. (23) Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability & accuracy of the information provided by Destination Assist are dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway. See [www.toyota.ca](http://www.toyota.ca) for details. (24) Traffic Incident and Weather App are available on Entune™ 3.0 Audio and Entune™ 3.0 Audio Plus multimedia displays. ## TEST DRIVE AND EARN AEROPLAN® MILES TODAY

You can earn Aeroplan® Miles when you purchase, test drive, or service your vehicle at a Toyota Dealership.

Speak to your Dealer for full details.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

**Toyota Canada Inc.** Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website [toyota.ca](http://toyota.ca) – or your Toyota Dealer is your best source for up-to-date information.
