

2020

SEQUOIA

AT TOYOTA, WE'RE MORE THAN JUST A CAR COMPANY

WE'RE A PARTNER IN THE JOURNEY TO LIVE YOUR MOST FULFILLING LIFE.

We give you the tools you need to achieve your full potential by designing our vehicles with purpose. To be as dynamic as the life you've always envisioned yourself living.

And we don't stop at meticulously designed, quality vehicles. We're pioneering alternative fuels, improving human movement, and creating meaningful community partnerships, like the one we have with our Olympic and Paralympic athletes. These initiatives demonstrate our determination to give everyone the ability to move freely through a world with constantly evolving mobility challenges, enriching that world in the process.

Alone, just a car. Together, so much more.

ROUGH IT COMFORTABLY

REDEFINING THE PHRASE "UP FOR ANYTHING."

The 2020 Sequoia is anything but ordinary. Built to last. Trusted worldwide. Sequoia lets you travel more roads than you ever thought possible with the pure power, strength, and versatility you need to face uncharted roads and unbeaten paths. The V8 engine makes hauling bikes, trailers and campers a breeze. When it's time to explore beyond the campsite, Sequoia's proven off-road capabilities make any challenging terrain look easy. Best of all, you can do it all in exceptional comfort. Sequoia's luxury interior was designed to surround you with soothing materials, quality features, and intuitive tech – because the journey should be just as enjoyable as the destination.

TRD PACKAGES

Whatever adventure your lifestyle has in store, Sequoia comes equipped to handle it with two unique TRD packages. The TRD Sport Package offers responsive handling and styling for a spirited drive, while the TRD PRO Package is equipped with premium features and performance upgrades for off-road fun.

GET THE MOST OUT OF EVERY DRIVE

ENJOY A COMFORTABLE AND CONNECTED EXPERIENCE

The cavernous 7 or 8 seater cabin comes with premium features that include chrome accents, high contrast stitching, heated seats, and reclining third-row seats. Sequoia's tailored environment is also loaded with the latest tech that listens to you, speaks to you and most importantly, keeps up with you.

APPLE CARPLAY™¹

Sequoia offers Apple CarPlay™ support as a standard feature. Connect your compatible iPhone® and get directions, make calls, send and receive messages, and listen to your own playlist with your voice through Siri® or the steering wheel controls – all while maintaining focus on your drive.

ANDROID AUTO™¹

Android Auto™ compatibility comes standard on the 2020 Sequoia. Android Auto automatically brings you useful information – like suggested destinations, upcoming appointments, and weather conditions – all organized into simple cards that appear just when they're needed.

POWERFULLY CAPABLE

Sequoia offers the toughness of a truck in the body of a versatile and sophisticated SUV, giving you the freedom to experience whatever the next turn has in store. It's forged on a fully boxed frame for strength and durability and boasts a powerful 381 hp 5.7L i-FORCE V8 engine with up to 3,220 kg (7,100 lb.) of towing capacity. And with a convenient one-touch 4WD system, 6-Speed, Automatic, Super Electronically Controlled Transmission, the 2020 Sequoia offers smooth shifting, improved driving, and enhanced fuel economy.

THE ROAD WILL CHANGE, BUT THE DRIVE NEVER WILL

FRONT AND REAR SUSPENSION

Sequoia's independent double-wishbone front and rear suspension gives you the best of both worlds: responsive handling on pavement and a smoother ride off-road. This sophisticated suspension utilizes low-pressure gas-filled shock absorbers and hollow stabilizer bars. Also enhancing Platinum's on-road performance is Adaptive Variable Suspension with three settings ranging from "comfort" to "sport."

AUTOMATIC LIMITED-SLIP DIFFERENTIAL

Sequoia's advanced Automatic Limited-Slip Differential uses the brakes to help reduce wheelspin and enhance traction performance on unpredictable road surfaces like sand or mud.

TRAILER-SWAY CONTROL

Trailer-Sway Control is designed to apply brake pressure at individual wheels and manage engine torque to help the driver maintain control of the trailer.

ARRIVE SAFE

STANDARD TOYOTA SAFETY SENSE™ (TSS-P).²

No matter what roads you travel, Toyota Safety Sense™ is always there to keep you as safe as possible. It's an advanced suite of innovative safety features that comes standard on the 2020 Sequoia, and it is designed to help protect drivers, passengers, pedestrians and people in other vehicles from harm.

PRE-COLLISION SYSTEM WITH PEDESTRIAN DETECTION³

Provides collision avoidance or collision mitigation support in speed ranges where frontal collisions are likely to occur. In certain conditions, the Pre-Collision System with Pedestrian Detection may also help to detect pedestrians and help prevent or mitigate a collision.

LANE DEPARTURE ALERT⁴

Alerts you if you start to drift out of your lane when visible lane markings are detected.

DYNAMIC RADAR CRUISE CONTROL⁵

Using forward sensing radar technology, the system can automatically adjust vehicle speed to help maintain a preset following distance between you and the vehicle directly in front of you.

AUTOMATIC HIGH BEAMS⁶

Designed to detect oncoming and preceding vehicles' lights and depending upon the circumstances, Automatic High Beams can switch between high and low beams for you.

SEQUOIA SELECT FEATURES

SR5 5.7L

DRIVETRAIN

- 5.7 Litre, i-FORCE V8 Engine with 381 hp @ 5600 rpm & 401 lb.ft. of Torque @ 3600 rpm, Front Wheel Drive

WARRANTY

No deductibles. No transfer fees.

COMPREHENSIVE COVERAGE 3 YEARS OR 60,000 KM

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS 5 YEARS OR 100,000 KM

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS 8 YEARS OR 130,000 KM

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION 5 YEARS/UNLIMITED DISTANCE

This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

DISCLAIMERS

(1) Driving while distracted can result in loss of vehicle control. Some features may be locked out while the vehicle is in gear. To reduce risk of accident while driving, exercise care when using the systems (even with the voice commands) and obey all local laws concerning use of the systems while driving (as some laws prohibit the use of electronic devices while operating a vehicle). Once the Connected Services by Toyota trial subscription expires, paid enrollment is required. Apple CarPlay, iPhone and Siri are trademarks of Apple Inc. Android Auto is a trademark of Google LLC. (2) Drivers should always be responsible for their own safe driving. Please always pay attention to your surroundings and drive safely. Depending on the conditions of roads, vehicles, weather, etc., the TSS systems may not work as intended. (3) The TSS Pre-Collision System is designed to help avoid or reduce the impact speed and damage in certain frontal collisions only. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, driver input and weather, light and road conditions. (4) Lane Departure Alert is designed to read lane markers under certain conditions and provide visual and audible alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. (5) Dynamic Radar Cruise Control is designed to assist the driver and is not a collision-avoidance system or a substitute for safe and attentive driving practices. System effectiveness depends on many factors such as weather, traffic and road conditions. (6) Automatic High Beam system operates at speeds above approximately 34 km/h. Factors such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn it off. (7) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors.

Details on the above features can be found in the Owner's Manual or contact your local Toyota Dealer.

Toyota Canada Inc. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure.
